THE CHHAPAI HUB

A Customised Digital Print Studio

GSTIN - 23BEHPJ9712A1ZX

ABOUT US

The Chhapai Hub is a modern personalized printing studio built on a legacy of over six decades in the printing and stationery industry. The journey began in 1964, when Mr. Nirmal Kumar Jain (Rahul Jain's father), established Jainson Printers, laying the foundation for a trusted family business in printing and stationery.

Continuing this legacy, Rahul Jain (Co-Founder) joined the family business in 1994 at the age of 17, gaining extensive hands-on experience in printing, stationery, and industrial supplies. With over 31 years of industry experience, he brings deep technical knowledge and operational expertise to the venture. In 2026, Rahul Jain, along with his wife Seema Jain, launched The Chhapai Hub to expand into modern and customized printing solutions. Seema Jain brings over 10 years of marketing experience in a private firm, adding a strong understanding of branding, customer engagement, and business development.

At The Chhapai Hub, we specialize in a wide range of personalized and professional printing services including sublimation printing on T-shirts, mugs, keychains and customized products, laser engraving, ID cards and lanyard printing, photo collages, large-size map printing, custom gifts, and various creative printing solutions. We also cater to school supplies, stationery needs, and corporate printing requirements. By combining decades of traditional printing expertise with modern technology, The Chhapai Hub aims to deliver high-quality, creative, and reliable printing solutions for individuals, institutions, businesses, and events.
